## Bible Symbolism

**1** - Unity, Oneness

*Symbolism Interpretation is less about individual words as it is to the relationship of those words in a statement, story, or even individual actions. The **Spiritual Key** to Bible Interpretation is given in the first 3 chapters of Genesis. The purpose of Reality Learning Center's **Tutorial** is to build foundational concepts and then provide a Word Picture of Reality, and the Interpretation of the first 3 chapters of Genesis in the "Seven Days of Creation" and the "Garden of Eden Story".*

## THE SEVEN MAIN ASPECTS OF GOD

**Spirit** - Is the body of GOD--HIS Essence. Spirit is the beginning and means of action--**Cause**.

**Principle** - is the **expression** of Spirit and defines the **unchanging** characteristics of anything. Together with Truth, Principle creates the Soul. Principle gives our Soul awareness. A principle aspect of water is that it will always need 2 parts hydrogen and one part oxygen.

**Intellect** - is the **manifestation** of Principle. Intellect deals with the physical reality through an understanding of its laws for forming relationships. In the Garden of Eden, Adam is Intellect. Intellect is then Cause for the physical reality.

**Soul** - is the "I am" of the being. It is formed by the Principle of "what" we are and the Truth of the "way" we are that what. Soul is always in the present (now) relative to itself.

**Life** - is the **manifestation** of Truth. Life determines the needs of Man as manifested in the physical reality. In the Garden of Eden Story, Life is Eve. Life "helps" Intellect as Cause in the physical reality.

**Truth** - is the **expression** of Love and defines the way the individual responds to a changing environment. A Truth aspect of water is the way it changes with temperature.

**Love** - is the reservoir of the way we are, the **Cause** of why we respond as we do to a changing environment. Love expresses the Truth of the way we are.

Man is in the **image** of GOD--capable of expressing all seven main aspects.
